## ENVIRONMENTAL ENGINEERS OF THE FUTURE

[www.engineeringmastersfunding.org](http://www.engineeringmastersfunding.org)

### Receive up to \$10,000 Towards Your Masters Degree in Environmental Engineering

### About the Funding Program

The broad purpose of the funding program is to provide an incentive for engineering Bachelor's candidates to pursue a Master's Degree in environmental engineering with emphasis on coursework that would prepare them for practice in the municipal water, wastewater and solid waste management fields.

Funding up to \$10,000 for tuition and living expenses will be available to students who are accepted into a Master of Science degree program at an approved university and who commit to taking identified required core courses and elective courses.

For more information about the program, our partners, and participating universities visit the website:

[www.engineeringmastersfunding.org](http://www.engineeringmastersfunding.org)

a unique partnership between students, universities, and employers

The vision of this program is to increase the number of highly trained engineers to meet future environmental challenges.

- **Up to \$10,000 towards a MS in Environmental Engineering**
- **60+ participating Universities**
- **Early application period open from October 1 to December 1**
- **Make A Difference!**
